## Product Description

### Product Description:

The BMW Front Brake Pad Set is made from high-quality materials that ensure long-lasting performance and reliability. The brake pads are designed to provide consistent and predictable braking performance under all driving conditions, making them an ideal choice for both everyday driving and high-performance applications.

One of the standout features of this BMW Brake Pad Set is the inclusion of a wear sensor. This sensor is designed to alert the driver when the brake pads are nearing the end of their lifespan, helping to ensure safe and reliable braking performance at all times.

Additionally, the package dimensions of this brake pad set are 8.5 X 5.5 X 3 inches.

The BMW Brake Pads with Shims are also designed with convenience in mind. The package comes with all the necessary hardware required for installation, making it easy to replace your old, worn-out brake pads with these high-quality replacements. This feature is especially beneficial for those who may not have access to specialized tools or equipment.

Finally, the BMW Front Replacement Brake Pad Set is made in Germany, ensuring that it meets the high standards of quality and performance that BMW is known for. If you're looking for a high-performance brake pad set that delivers reliable stopping power and long-lasting performance, then this is an excellent choice.
