heavy duty honda brake pad set**

Product Description:

These front brake pads are designed to provide superior stopping power for your Honda, whether you're driving on the highway or navigating through city streets. The ceramic material used in these brake pads offers exceptional heat dissipation and reduced brake fade, so you can enjoy consistent and reliable braking performance every time you hit the brakes. In addition to their superior performance, these front brake pads are also incredibly lightweight, weighing in at just two pounds. This makes them easy to install and reduces the overall weight of your vehicle, which can help improve fuel efficiency and handling. One of the standout features of this Honda Brake Pad Set is the included wear sensor. This sensor is designed to alert you when it's time to replace your front brake pads, so you can stay on top of maintenance and ensure your brakes are always performing at their best. This wear sensor is a crucial component of any brake pad set, as it can help prevent costly brake damage and ensure your safety on the road. Overall, this Honda Brake Pad Set with OE number 45022-TA0-A00 is an excellent choice for anyone in need of front brake pads for their Honda vehicle. With their premium ceramic material, lightweight design, and included wear sensor, these front brake pads offer exceptional value and performance for drivers who demand the best from their brakes.
