Product Description:

The Toyota Brake Pad Set is an OEM product, with a part number of 04465-60280. This means that it is an original equipment manufacturer product, designed and manufactured to the same specifications as the brake pads that came with your vehicle when it was new. This ensures that you get a perfect fit and optimal performance every time you use your brakes. This brake pad set is designed for both the front and rear brakes of your Toyota vehicle. This means that you can replace both sets of brake pads at the same time, ensuring that your brakes are working at their best. Whether you are looking to replace your front brake pads, rear brake pads, or both, the Toyota Brake Pad Set is the perfect choice. One of the most important things to consider when choosing brake pads for your Toyota vehicle is their quality. You want to choose brake pads that are not only affordable, but also reliable and long-lasting. The Toyota Brake Pad Set is an excellent choice for anyone who wants good brake pads that will provide reliable performance for years to come. In addition to its high quality and durability, the Toyota Brake Pad Set also comes with a 1-year warranty. This means that if you experience any issues with your brake pads within the first year of use, you can return them for a replacement or refund. This gives you peace of mind knowing that your investment is protected. Finally, the Toyota Brake Pad Set also comes with a factory number of ZK-11007. This number helps to ensure that you are getting an authentic, high-quality product that is designed specifically for your Toyota vehicle. So if you are in need of new brake pads for your Toyota, look no further than the Toyota Brake Pad Set.

Applications:

With a model number of 201562, this set includes 2 front brake pads and 2 rear brake pads, making it a complete solution for your braking needs. Its heat resistance feature ensures that the brake pads won't deteriorate in high-temperature conditions, making it a reliable option for long drives. The ZKZB Brake Pad Set also boasts a friction coefficient of 0.35, meaning that it provides sufficient stopping power when you need it most. Whether you're driving on the highway or in the city, these brake pads will give you the confidence to brake effectively and safely. Additionally, this brake pad set comes with a 1-year warranty, giving you peace of mind knowing that you're covered in case of any defects or issues. Overall, the ZKZB Brake Pad Set is a reliable and durable option for those in need of good brake pads for their Toyota Prado. With its heat resistance and high friction coefficient, you can trust this set to provide the stopping power you need in any driving scenario.

Customization:

With an OEM number of 04465-60280, the ZKZB Brake Pad Set is a perfect fit for a variety of Toyota models, including the Corolla, Camry, RAV4, Prius, Highlander, Sienna, Tacoma, Tundra, 4Runner, and Avalon.

At 0.5 inches thick, these brake pads for Toyota vehicles offer excellent wear resistance and are backed by a 1-year warranty for your peace of mind.

Support and Services:

The Toyota Brake Pad Set is a high-quality set of brake pads designed for Toyota vehicles. These brake pads are made from high-quality materials and are designed to meet the exact specifications of your Toyota vehicle. They are manufactured to provide reliable stopping power and consistent performance in a variety of driving conditions.

Toyota offers a range of technical support and services for their brake pad products. If you have any questions or concerns about the installation, operation, or maintenance of your Toyota Brake Pad Set, their technical support team is available to assist you. They can provide guidance on proper installation techniques, answer questions about the performance of the brake pads, and provide advice on how to keep your brake pads in top condition.

In addition to technical support, Toyota also offers a range of services to help you get the most out of your brake pads. These services include routine maintenance and inspections, as well as repair and replacement services if needed. They use only genuine Toyota parts and employ highly trained technicians to ensure that your brake pads are always operating at their best.
