Product Description

Product Description:

The Disc Brake Pad Set is a Parking Brake type, designed to provide optimum performance in stopping your vehicle. Its length of 7.6 inches makes it suitable for a wide range of vehicles, so you can be confident that it will fit your car perfectly. The package also includes shims to ensure a quiet and vibration-free brake operation, giving you a comfortable driving experience.

One of the best features of the Disc Brake Pad Set is its good ceramic brake pads, which offer superior durability and reliability compared to other types of brake pads. Ceramic brake pads are known to have a longer lifespan, produce less dust and noise, and provide better stopping power, making them a popular choice among car owners.

Whether you're replacing your old brake pads or upgrading to a better set, the Disc Brake Pad Set from ACDelco is a great option to consider. With its high-quality materials and excellent performance, you can be sure that your brakes will work smoothly and safely every time. So why settle for less? Get your hands on the Disc Brake Pad Set today and enjoy a worry-free driving experience.

Applications:

The ZKZB 3225423 Disc Brake Pad Set is perfect for those who need a reliable and durable set of brake pads for their car. Whether you are driving in the city or on the highway, these ceramic brake pads offer superior stopping power and improved safety on the road.

The heat-resistant properties of these ceramic brake pads make them ideal for use in high-performance vehicles that generate a lot of heat during braking. The ceramic material is able to dissipate heat quickly and effectively, preventing brake fade and ensuring consistent performance.

The ZKZB 3225423 Disc Brake Pad Set comes with shims included, making installation quick and easy. These shims help to reduce noise and vibration during braking, providing a smoother and more comfortable driving experience.

These disc brake pads are suitable for placement on both the front and rear of a vehicle, making them a versatile choice for many different makes and models. Whether you are looking to upgrade your existing brake pads or need to replace worn-out ones, the ZKZB 3225423 Disc Brake Pad Set is an excellent choice.

In conclusion, if you are looking for a high-quality set of ceramic brake pads that offer excellent stopping power, durability, and heat resistance, then the ZKZB 3225423 Disc Brake Pad Set is the perfect choice for you. With its easy installation, shims included, and suitability for both front and rear placement, this product is a must-have for any car owner who values safety and reliability on the road.
