Basic Information

- Brand Name: FORD
- Model Number: 201562

Product Specification

- Model: Explorer 2020
- Type: Brake Pad
- Position: Front And Rear
- Manufacturer Part Number: FD-BP-SET-001
- Vehicle Compatibility: Ford Vehicles
- Interchange Part Number: FD-67890
- Braking System: Ate-Teves
- Fmsi: D910
- Highlight: **Full Potential Brake Pads,
Braking System Brake Pads,
Unleash Full Potential Brake Pads**

Product Description

Product Description:

One of the key features of these Ford Brake Pads is their Noise Reduction Technology, which ensures a quiet and smooth braking experience. This technology reduces noise levels during braking, providing a more comfortable ride for you and your passengers. Not only do these brake pads offer superior performance, but they are also Ford Low Dust Brake Pads. This means that they produce minimal dust, keeping your wheels cleaner for longer periods. Say goodbye to unsightly brake dust buildup on your wheels with these high-quality brake pads.

When you invest in the Ford Brake Pad Set, you can rest assured that you are getting a top-quality product backed by a 1-year warranty. This warranty gives you peace of mind knowing that your purchase is protected against any manufacturing defects or faults.

Upgrade your braking system with the Ford Brake Pad Set and experience the difference in performance and reliability. Whether you are driving in city traffic or cruising on the highway, these brake pads will deliver consistent and powerful braking performance.

Don't compromise on safety and quality when it comes to your vehicle's braking system. Choose the best brake pads for your Ford Explorer 2020 and enjoy a smooth and reliable driving experience every time you hit the road.

Features:

Product Name: Ford Brake Pad Set
Interchange Part Number: FD-67890
Oem: 306835598
Fmsi: D910
Vehicle Compatibility: Ford Vehicles
Material: Ceramic

Technical Parameters:

Material	Ceramic
Installation Method	Bolt-on
Interchange Part Number	FD-67890
Noise Reduction Technology	Yes
Type	Brake Pad
Fmsi	D910
Position	Front And Rear
Braking System	Ate-Teves
Model	Explorer 2020
Compatibility	Ford Vehicles

Applications:

Manufactured in China, the Ford Brake Pad Set (Manufacturer Part Number: FD-BP-SET-001) is suitable for both front and rear positions, making it a versatile option for a wide range of vehicles. The interchange part number FD-67890 ensures compatibility with various Ford models, providing a perfect fit and reliable performance.

One of the key highlights of the Ford Brake Pad Set is its low dust formula, which helps to minimize brake dust and keep your wheels clean for a longer period. These Ford Low Dust Brake Pads are ideal for drivers who want to maintain a clean and polished look on their vehicles.

Whether you are driving in city traffic or cruising on the highway, the Ford Brake Pad Set offers consistent braking performance and smooth operation, making it one of the best brake pads available in the market. The installation method is bolt-on, which means you can easily replace your old brake pads with these high-quality ones without any hassle.

With the Fmsi code D910, you can trust that the Ford Brake Pad Set meets the industry standards for safety and performance. Whether you are a daily commuter or a weekend adventurer, these brake pads are perfect for all occasions and scenarios where reliable braking power is essential.
