- Shims Included: Yes
- Placement On Vehicle: Front And Rear
- Oe Replacement: Yes
- Heat Resistant: Yes
- Highlight: **Front And Rear Ceramic Brake Pad,
Long-Lasting Performance Ceramic Brake Pad,
Rear Placement Ceramic Brake Pad**

Product Description

Product Description:

The Disc Brake Pad Set is a top-quality product designed to provide excellent braking performance for your vehicle. This brake pad set comes with shims included, making installation quick and easy. The shims help reduce noise and vibrations, ensuring a smooth and quiet braking experience.

These ceramic brake pads are engineered to meet or exceed OEM specifications, guaranteeing reliable and consistent performance. The use of ceramic material ensures excellent heat resistance, preventing brake fade and maintaining braking efficiency even under high temperatures.

The disc brake pads are designed in a standard size to fit a wide range of vehicle makes and models. The part number DBP-001 makes it easy to identify and match the brake pads to your specific vehicle. Whether you drive a sedan, SUV, truck, or any other type of vehicle, these brake pads are a versatile choice.

Weighing only 1.98 pounds, these disc brake pads are lightweight yet durable. The lightweight design helps reduce unsprung weight, contributing to improved handling and performance. Despite their lightness, these brake pads offer excellent stopping power and durability for long-lasting performance.

Upgrade your vehicle's braking system with the Disc Brake Pad Set and experience the benefits of high-quality ceramic brake pads. Say goodbye to squeaky brakes and inconsistent performance – these brake pads provide reliable stopping power every time you hit the brakes. Enjoy peace of mind on the road knowing that your vehicle's braking system is equipped with top-notch disc brake pads.

Applications:

ZKZB Disc Brake Pad Set (Model Number: 3225423) is a top choice for automotive enthusiasts looking for the best brake pad brand in the market. Manufactured in China, these ceramic brake pads are designed to provide excellent performance and durability, making them suitable for a wide range of vehicles and driving conditions.

One of the key features of the ZKZB Disc Brake Pad Set is the inclusion of shims, which help reduce noise and vibration during braking, making for a smoother and quieter driving experience. The chamfered design of the brake pads ensures proper fit and function, further enhancing their performance.

These ceramic brake pads are specifically designed for parking brake applications, offering reliable and consistent braking performance when engaged. The bolt-on installation method makes it easy to replace the old brake pads with the ZKZB Disc Brake Pad Set, saving time and effort for DIY enthusiasts and professional mechanics alike.

Whether you are looking to upgrade your vehicle's braking system for daily commuting or seeking high-performance brake pads for spirited driving, the ZKZB Disc Brake Pad Set is a versatile product that meets the demands of various driving scenarios. From city streets to open highways, these brake pads deliver reliable stopping power and consistent performance.

Experience the benefits of using a trusted brand like ZKZB for your automotive replacement brake pads needs. Trust in the quality and reliability of ceramic brake pads that are designed to exceed expectations and provide a safe and enjoyable driving experience. Upgrade your braking system with the ZKZB Disc Brake Pad Set and enjoy the peace of mind that comes with using top-of-the-line brake pads.
