Our Product Introduction

for more products please visit us on [brakepadsset.com](http://brakepadsset.com)

### Basic Information

- Brand Name: ZKZB
- Model Number: 3225423

### Product Specification

- Weight: 1.98 Pounds
- Placement On Vehicle: Front And Rear
- Size: Standard
- Wear Sensor Included: Yes
- Chamfered: Yes
- Heat Resistant: Yes
- Installation Method: Bolt-On
- Oe Replacement: Yes
- Highlight: **Chamfered Ceramic Brake Pads,  
Noise Free Braking Ceramic Brake Pads,  
Shims Included Ceramic Brake Pads**

## Product Description

### Product Description:

When it comes to ensuring top-notch braking performance and reliability, the Disc Brake Pad Set with shims included is a must-have for your vehicle. Designed to deliver exceptional stopping power and durability, this product is a true standout in the realm of ceramic brake pads.

With the part number DBP-001, this Disc Brake Pad Set comes in a quantity of 4 pieces, providing you with a complete set to outfit your vehicle with the best ceramic brake pads available on the market. Each piece is meticulously crafted to meet the highest standards of quality and performance.

One of the key features of this Disc Brake Pad Set is its heat-resistant nature. Engineered to withstand high temperatures generated during braking, these ceramic brake pads maintain their integrity and effectiveness even under extreme conditions. This heat resistance ensures that your braking system remains reliable and efficient during intense driving scenarios.

Moreover, these ceramic brake pads come equipped with wear sensors, adding an extra layer of safety and convenience to your driving experience. The wear sensors are designed to alert you when the brake pads are approaching the end of their lifespan, allowing you to proactively replace them and maintain optimal braking performance.

Whether you're navigating city streets or tackling challenging terrains, these ceramic brake pads provide consistent and responsive braking power, giving you the confidence to drive with peace of mind. The inclusion of shims further enhances the overall performance of the brake pads by reducing noise and vibration, ensuring a smooth and quiet braking operation.

Investing in the Disc Brake Pad Set with shims included is a smart choice for drivers who prioritize safety, performance, and longevity.

Upgrade your vehicle's braking system with the best ceramic brake pads available and experience the difference in stopping power and durability.

### Technical Parameters:

Part Number	DBP-001
Shims Included	Yes
Warranty	1 Year
Product Type	Automotive Replacement Brake Pads
Heat Resistant	Yes
Placement On Vehicle	Front And Rear
Size	Standard
Weight	1.98 Pounds
Quantity	4 Pieces
Oe Replacement	Yes

### Applications:

ZKZB Disc Brake Pad Set Model Number 3225423 is a high-quality product originating from China. These OE replacement disc brake pads are designed to provide reliable and consistent performance, making them suitable for a variety of application occasions and scenarios.

Whether you are a professional mechanic working on a customer's car or a DIY enthusiast looking to upgrade your vehicle's braking system, the ZKZB Disc Brake Pad Set is a great choice. The good ceramic brake pads offer excellent stopping power and durability, ensuring safety and peace of mind on the road.

Thanks to their standard size and chamfered design, these ceramic brake pads are compatible with a wide range of vehicles, making them versatile and convenient for different makes and models. The ZKZB Disc Brake Pad Set is also lightweight at 1.98 pounds, making installation and handling easier for users.

Whether you are driving in urban traffic, cruising on the highway, or tackling off-road trails, the ZKZB Disc Brake Pad Set provides reliable braking performance in various driving conditions. From daily commuting to spirited driving, these disc brake pads offer consistent and responsive braking, enhancing overall driving experience.

For automotive workshops and garages looking for a dependable and cost-effective brake pad solution, the ZKZB Disc Brake Pad Set with Factory No ZK-14011 is a smart choice. The OE replacement design ensures proper fit and function, giving customers peace of mind knowing that their vehicle's braking system is in good hands.

### Customization:

Enhance your braking performance with our customized ZKZB disc brake pads. Our model number 3225423 brake pads are designed and manufactured in China, ensuring high quality and reliability. These heat resistant brake pads are easy to install using the bolt-on method, making them a perfect fit for your vehicle.

This set includes 4 pieces of brake pads, providing you with all you need for a complete replacement. Trust in our 1-year warranty to cover any manufacturing defects, giving you peace of mind on the road.

Upgrade to the best brake pad brand with our ZKZB OEM brake pads, weighing only 1.98 pounds for optimal performance. Drive with confidence knowing your braking system is equipped with top-quality components.
