- Model Number: 201562

### Product Specification

- Heat Resistance: Yes
- Weight: 2.5 Pounds
- Compatibility: Toyota Vehicles
- Oe Number: 04465-AZ114
- Noise Reduction: Yes
- Model: Corolla
- Country Of Origin: Japan
- Friction Material Thickness: 0.5 Inches
- Highlight: Safe Ceramic Brake Pad,  
ACT1210 Ceramic Brake Pad,  
Smooth Ceramic Brake Pad

## Product Description

### Product Description:

The Toyota Brake Pad Set is specifically designed for the front position of your Toyota vehicle, providing reliable braking performance. This set of brake pads is a crucial component for ensuring your vehicle's safety on the road.

One of the standout features of these brake pads is their noise reduction capability. With noise reduction technology integrated into the design, you can enjoy a quieter and more comfortable driving experience. Say goodbye to the annoying squeaking and grinding sounds typically associated with braking.

When you purchase the Toyota Brake Pad Set, you will receive a package quantity of 1 set, which includes 4 pieces of brake pads. This comprehensive set ensures that you have all the necessary components to replace the brake pads on both sides of the front axle.

The friction material thickness of these brake pads is 0.5 inches, providing optimal stopping power and durability. The thickness of the friction material directly impacts the braking performance, making these brake pads a reliable choice for your Toyota vehicle.

These brake pads are engineered to meet the high standards set by Toyota, ensuring compatibility and performance. With their precise fit and quality construction, you can trust that these brake pads will deliver consistent and dependable braking performance.

Additionally, the Toyota Brake Pad Set comes with clips for easy installation. The included clips allow for a secure and hassle-free mounting process, saving you time and effort during the replacement procedure. With the brake pads equipped with clips, you can confidently maintain your vehicle's braking system.

In conclusion, the Toyota Brake Pad Set is a top-quality product that offers exceptional performance, noise reduction, and ease of installation. Upgrade your vehicle's braking system with these reliable brake pads designed specifically for Toyota vehicles.

### Applications:

ZKZB Brake Pad Set Model 201562 is a high-quality product suitable for Toyota vehicles. Made from ceramic material, these brake pads offer excellent performance and durability, making them a reliable choice for drivers looking for good brake pads.

The OE Number 04465-AZ114 ensures compatibility and proper fitment with Toyota vehicles, providing peace of mind to users. The inclusion of brake pads with clips makes installation quick and easy, saving time and effort for both professionals and DIY enthusiasts. With a friction material thickness of 0.5 inches, these ZKZB brake pads offer consistent and reliable braking performance, ensuring safety on the road. Whether driving in city traffic or on the highway, these brake pads deliver the stopping power needed to keep you and your passengers safe.

Manufactured in China but with a country of origin in Japan, these brake pads combine quality craftsmanship with reliable materials, offering a premium brake pad option for Toyota vehicles. The ZKZB brand is known for its commitment to excellence and performance, making these brake pads a top choice for discerning drivers.

Whether you are driving a Toyota sedan, SUV, or truck, the ZKZB Brake Pad Set Model 201562 is designed to meet your braking needs. From daily commutes to weekend road trips, these brake pads provide the reliability and performance you expect from a top-quality product.
