- Model Number: 201562

### Product Specification

- Model: Corolla
- Weight: 2.5 Pounds
- Compatibility: Toyota Vehicles
- Noise Reduction: Yes
- Oe Number: 04465-AZ114
- Heat Resistance: Yes
- Wear Sensor: Included
- Package Quantity: 1 Set
- Highlight: **ACT1210 Toyota Brake Pad Set,  
Front Position Toyota Brake Pad Set,  
0.5 Inches Toyota Brake Pad Set**

## Product Description

### Product Description:

Looking for high-quality brake pads for your Toyota vehicle? Look no further than the Toyota Brake Pad Set. Designed specifically for Toyota vehicles, this brake pad set offers exceptional performance and reliability to keep you safe on the road.

One of the standout features of these brake pads is the use of ceramic material. Ceramic brake pads are known for their durability and superior performance compared to traditional semi-metallic or organic brake pads. With ceramic brake pads, you can expect quieter braking, less dust accumulation, and overall better braking performance.

Furthermore, the Toyota Brake Pad Set comes with a wear sensor included. The wear sensor is a valuable component that alerts you when it's time to replace your brake pads, ensuring you always have optimal braking performance. This added safety feature helps you stay ahead of any potential issues and maintain the reliability of your braking system.

When it comes to compatibility, these brake pads are specifically designed for Toyota vehicles. Whether you have a Corolla, Camry, RAV4, or any other Toyota model, you can trust that these brake pads will fit perfectly and deliver the performance you expect from genuine Toyota parts.

In terms of heat resistance, the Toyota Brake Pad Set excels. Heat resistance is crucial for brake pads, as they need to withstand high temperatures generated during braking without sacrificing performance. With these brake pads, you can have confidence in their ability to maintain consistent braking performance even under extreme conditions.

Another important feature to note is the friction material thickness of 0.5 inches. The thickness of the friction material directly impacts the longevity and effectiveness of the brake pads. With a thickness of 0.5 inches, these brake pads offer a balance of durability and performance, ensuring they will last for a significant amount of time while providing reliable braking power.

In conclusion, the Toyota Brake Pad Set is the ideal choice for anyone in need of top-notch brake pads for their Toyota vehicle. With ceramic material, a wear sensor, compatibility with Toyota vehicles, excellent heat resistance, and a suitable friction material thickness, these brake pads tick all the boxes for quality, performance, and safety. Upgrade your braking system with the Toyota Brake Pad Set today and enjoy peace of mind knowing your vehicle's braking performance is in good hands.

### Applications:

ZKZB Brake Pad Set Model 201562 is a high-quality product designed for Toyota vehicles, specifically for the Corolla model.

Manufactured in China with components sourced from Japan, these brake pads are known for their reliability and performance.

With a quantity of 4 pieces included in the set, these brake pads are suitable for various Toyota Corolla models, providing a perfect fit and ensuring optimal braking efficiency. The brake pads come with clips for easy installation, making the replacement process convenient and hassle-free.

One of the key features of these brake pads is their noise reduction capability, which enhances driving comfort by minimizing brake squeal and ensuring smooth braking operation. Whether you are driving in urban areas or on the highway, these brake pads for Toyota vehicles deliver consistent and reliable performance.

The ZKZB Brake Pad Set Model 201562 is ideal for a wide range of application occasions and scenarios. Whether you are commuting to work, running errands around the city, or embarking on a long road trip, these brake pads will provide the stopping power you need with confidence.

From daily driving to occasional long-distance journeys, these brake pads are engineered to meet the demands of modern driving conditions. Their compatibility with Toyota vehicles, attention to noise reduction, and reliable performance make them a top choice for Corolla owners looking for quality brake pads.

### Customization:

Customize your Toyota Brake Pad Set with our Product Customization Services:

- Brand Name: ZKZB
- Model Number: 201562
- Place Of Origin: China
- Package Quantity: 1 Set
- Interchange Part Number: 04465-35290, D1210, ACT1210
- Weight: 2.5 Pounds
- Quantity: 4 Pieces
- Position: Front

Enhance your driving experience with these high-quality brake pads for Toyota. Our brake pads are known for being reliable, durable, and provide excellent performance. Get these good brake pads for Toyota and enjoy a smooth and safe ride.
