### Basic Information

- Brand Name: ZKZB
- Model Number: ZK-81002

### Product Specification

- Oe Replacement: Yes
- Country/Region Of Manufacture: China
- Position: Front And Rear
- Interchange Part Number: D1293 D1222
- Product Weight: 2.5 Pounds
- Type: Brake Pad
- Shims Included: Yes
- Color: Black
- Highlight: **Top Performing Disc Brake Pad Set ,  
Ceramic Disc Brake Pad Set,  
Smooth Ceramic Disc Brake Pad**

Product Description:

Are you looking for reliable and high-quality disc brake pads for your vehicle? Look no further than our Disc Brake Pad Set, the perfect solution for all your braking needs. These OEM brake pads are designed to provide exceptional performance and durability, ensuring a safe and smooth driving experience.

Our Disc Brake Pad Set is specially engineered to withstand high temperatures, making them highly heat resistant. This feature is crucial for ensuring optimal braking performance, especially during heavy braking situations or in challenging driving conditions. With these heat-resistant disc brake pads, you can drive with confidence knowing that your braking system is up to the task.

One of the standout features of our Disc Brake Pad Set is the inclusion of shims. These shims play a vital role in reducing noise and vibration during braking, providing a quieter and more comfortable driving experience. By minimizing unwanted noise and vibrations, these shims contribute to a smoother and more enjoyable ride for you and your passengers.

When it comes to compatibility, our Disc Brake Pad Set is designed to fit a wide range of vehicles. The interchange part numbers D1293 and D1222 ensure that these OEM brake pads are suitable for a variety of car makes and models. Whether you drive a sedan, SUV, truck, or crossover, you can trust that our disc brake pads will deliver the performance and reliability you need.

These OEM brake pads are proudly manufactured in China, a country known for its expertise in producing high-quality automotive parts. With a focus on precision engineering and strict quality control measures, our Disc Brake Pad Set meets the highest standards of excellence. You can trust that these disc brake pads are crafted with care and attention to detail, ensuring a product that is both reliable and durable.

Another key benefit of our Disc Brake Pad Set is its ease of installation. Designed for hassle-free setup, these disc brake pads can be quickly and efficiently installed on your vehicle. Whether you are a seasoned mechanic or a DIY enthusiast, you will appreciate the straightforward installation process of our OEM brake pads. Say goodbye to complicated installations and hello to smooth and efficient brake pad replacements.

In conclusion, our Disc Brake Pad Set offers the perfect combination of performance, durability, and convenience. With features such as heat resistance, included shims, interchange part numbers D1293 and D1222, country of manufacture in China, and easy installation, these OEM brake pads are the ideal choice for drivers who demand the best for their vehicles. Upgrade your braking system today with our Disc Brake Pad Set and experience the difference in quality and performance.

Features:

Product Name: Disc Brake Pad Set  
Material: Ceramic  
Dimensions: 8.5 X 5.5 X 2.5 Inches  
Type: Brake Pad  
Oe Replacement: Yes  
Size: Standard

Technical Parameters:

Dimensions	8.5 X 5.5 X 2.5 Inches
Country/Region Of Manufacture	China
Interchange Part Number	D1293 D1222
Color	Black
Type	Brake Pad
Size	Standard
Product Weight	2.5 Pounds
Easy To Install	Yes
Oe Replacement	Yes
Product Type	Automotive Replacement Brake Pads

Applications:

ZKZB Disc Brake Pad Set (Model Number: ZK-81002) is a top-quality product manufactured in China, offering exceptional performance and durability. These ceramic brake pads are designed to provide superior stopping power and reliability, making them ideal for a wide range of applications.

With the inclusion of shims, these brake pads ensure quiet operation and reduce vibration, enhancing the overall driving experience. The black color of the pads adds a sleek and professional look to your vehicle, while the heat-resistant design ensures consistent braking performance even under high temperatures.

Whether you are driving in urban traffic or cruising on the highway, ZKZB Disc Brake Pad Set is the perfect choice for demanding driving conditions. The interchange part numbers D1293 and D1222 further confirm the compatibility and reliability of these brake pads.

These best ceramic brake pads are suitable for various occasions and scenarios, including daily commuting, long-distance travel, and even performance driving. Their superior construction and advanced materials make them a reliable choice for drivers who prioritize safety and performance.

Manufactured in China, these ceramic brake pads meet the highest quality standards and undergo rigorous testing to ensure optimal performance and longevity. Whether you are a professional mechanic or a DIY enthusiast, ZKZB Disc Brake Pad Set is the ideal solution for your braking needs.
