Basic Information

- Brand Name: ZKZB
- Model Number: ZK-81002

Product Specification

- Dimensions: 8.5 X 5.5 X 2.5 Inches
- Oe Replacement: Yes
- Manufacturer Part Number: ZK-11001
- Color: Black
- Product Type: Automotive Replacement Brake Pads
- Type: Brake Pad
- Material: Ceramic
- Interchange Part Number: D1293 D1222
- Highlight: **Shims Included Disc Brake Pad Set ,
Disc Brake Pad Set Ceramic ,
Shims Included Ceramic Disc Brake Pad**

Product Description

Product Description:

The Disc Brake Pad Set is a high-quality product designed to provide efficient braking performance for your vehicle. With dimensions of 8.5 x 5.5 x 2.5 inches, this set of disc brake pads is suitable for a wide range of vehicle models.

Interchangeable with part numbers D1293 and D1222, these OEM brake pads ensure a perfect fit and compatibility with your vehicle's braking system. Whether you are replacing worn-out brake pads or upgrading to a more reliable braking solution, these disc brake pads offer excellent performance and durability.

One of the key features of this product is its ease of installation. With a hassle-free installation process, you can quickly and easily replace your old brake pads with these new ones. The user-friendly design of these ceramic brake pads makes them suitable for DIY enthusiasts and professional mechanics alike.

These disc brake pads are OE replacements, meaning they meet the same quality standards as the original equipment manufacturer. With a focus on performance and reliability, these OEM brake pads are designed to deliver consistent braking power and responsiveness in various driving conditions.

Despite their high-quality construction and reliable performance, these disc brake pads are lightweight, weighing only 2.5 pounds. This lightweight design helps reduce unsprung weight, which can improve overall handling and braking efficiency.

In conclusion, the Disc Brake Pad Set is a top choice for drivers looking for good ceramic brake pads that offer exceptional performance and durability. With interchange part numbers D1293 and D1222, easy installation, OE replacement quality, and a weight of 2.5 pounds, these disc brake pads are a reliable and efficient braking solution for your vehicle.

Features:

Product Name: Disc Brake Pad Set

Oe Replacement: Yes

Manufacturer Part Number: ZK-11001

Product Type: Automotive Replacement Brake Pads

Heat Resistant: Yes

Country/Region Of Manufacture: China

Technical Parameters:

Shims Included	Yes
Interchange Part Number	D1293 D1222
Product Weight	2.5 Pounds
Material	Ceramic
Type	Brake Pad
Heat Resistant	Yes
Size	Standard
Position	Front And Rear
Product Type	Automotive Replacement Brake Pads
Country/Region Of Manufacture	China

Applications:

ZKZB disc brake pad set, model number ZK-81002, is a high-quality product suitable for a variety of applications and scenarios. Made in China, these disc brake pads are known for their exceptional performance and durability.

These good ceramic brake pads are easy to install, making them ideal for DIY enthusiasts and professional mechanics alike. The black color and standard size of the ZKZB brake pads ensure they will seamlessly blend in with the existing components of your vehicle.

Whether you need disc brake pads for the front or rear position, the ZK-81002 model from ZKZB is designed to meet your needs.

Manufactured in China, these OEM brake pads adhere to strict quality control standards, ensuring reliability and safety on the road.

The ZKZB disc brake pad set is perfect for everyday driving, as well as more demanding applications such as towing or off-roading. With their superior braking performance and long-lasting ceramic construction, these brake pads provide peace of mind and confidence behind the wheel.

Whether you are driving in urban traffic or navigating challenging terrain, the ZKZB disc brake pad set offers consistent braking power and responsiveness. Trust in the quality and craftsmanship of ZKZB brake pads to deliver a smooth and reliable braking experience every time.
