### Basic Information

- Brand Name: ZKZB
- Model Number: ZK-81002

### Product Specification

- Product Type: Automotive Replacement Brake Pads
- Product Weight: 2.5 Pounds
- Interchange Part Number: D1293 D1222
- Dimensions: 8.5 X 5.5 X 2.5 Inches
- Material: Ceramic
- Shims Included: Yes
- Size: Standard
- Manufacturer Part Number: ZK-11001
- Highlight: **Smooth Safe Disc Brake Pad Set ,  
Automotive Replacement Disc Brake Pad Set ,  
Smooth Safe Ceramic Disc Brake Pad**

## Product Description

### Product Description:

The Disc Brake Pad Set is a high-quality product designed to provide exceptional performance for your vehicle's braking system. With dimensions of 8.5 X 5.5 X 2.5 inches, this brake pad set is suitable for various car models and ensures a perfect fit.

As a type of brake pad, this product is specifically engineered to deliver reliable and efficient braking power, giving you peace of mind while driving. The use of ceramic material in these brake pads sets them apart from traditional brake pads, offering superior performance and durability.

When it comes to OE replacement, this Disc Brake Pad Set is an excellent choice as it meets or exceeds the standards of original equipment manufacturers. This ensures compatibility and proper functioning with your vehicle's braking system, making installation hassle-free.

One of the key features of these brake pads is their heat resistance, allowing them to maintain optimal performance even under high temperatures. This heat-resistant property helps prevent brake fade and ensures consistent braking power, making them ideal for various driving conditions.

Designed for use in both the front and rear positions, these ceramic brake pads provide excellent stopping power and responsiveness, enhancing the overall safety and performance of your vehicle. Whether you're cruising down the highway or navigating city streets, these brake pads deliver the reliability you need.

When it comes to choosing the best ceramic brake pads for your vehicle, look no further than this Disc Brake Pad Set. With its premium quality construction, OE replacement compatibility, heat resistance, and versatility for front and rear positions, these brake pads offer outstanding value and performance.

Upgrade your vehicle's braking system with the Disc Brake Pad Set and experience the benefits of ceramic brake pads. Enjoy smoother stops, improved durability, and enhanced safety on the road with these top-of-the-line brake pads. Invest in quality, reliability, and performance for your vehicle today!

### Features:

Product Name: Disc Brake Pad Set

Oe Replacement: Yes

Interchange Part Number: D1293 D1222

Position: Front And Rear

Product Weight: 2.5 Pounds

Type: Brake Pad

### Technical Parameters:

Material	Ceramic
Oe Replacement	Yes
Color	Black
Interchange Part Number	D1293 D1222
Size	Standard
Heat Resistant	Yes
Product Weight	2.5 Pounds
Easy To Install	Yes
Type	Brake Pad
Manufacturer Part Number	ZK-11001

### Applications:

The ZKZB Disc Brake Pad Set (Model Number: ZK-81002) is a high-quality product made of ceramic material, designed to provide exceptional braking performance for various vehicles. With its interchange part numbers D1293 and D1222, these black brake pads offer reliability and durability, making them ideal for different applications.

One of the key features of the ZKZB Disc Brake Pad Set is its OEM compatibility, ensuring a perfect fit and performance similar to original equipment manufacturer (OEM) brake pads. This makes them suitable for a wide range of vehicles, providing drivers with peace of mind and confidence in their braking system.

These ceramic brake pads are manufactured in China, guaranteeing quality craftsmanship and materials. The dimensions of 8.5 x 5.5 x 2.5 inches make them suitable for various vehicle models, offering versatility and convenience for installation.

The ZKZB Disc Brake Pad Set is perfect for a range of occasions and scenarios, including daily commuting, long-distance travel, and even performance driving. Whether you are driving in urban traffic or cruising on the highway, these brake pads deliver consistent and reliable braking power.

Drivers looking for the best ceramic brake pads can rely on the ZKZB Disc Brake Pad Set to deliver superior performance and longevity. The ceramic material offers excellent heat dissipation and friction properties, resulting in smooth and efficient braking, even in demanding driving conditions.

Overall, the ZKZB Disc Brake Pad Set is a top choice for vehicle owners seeking high-quality, OEM-compatible brake pads that offer

exceptional performance and durability. Upgrade your braking system with these reliable and efficient brake pads for a safer and more enjoyable driving experience.
