### Basic Information

- Brand Name: ZKZB
- Model Number: ZK-81002

### Product Specification

- Product Type: Automotive Replacement Brake Pads
- Shims Included: Yes
- Type: Brake Pad
- Interchange Part Number: D1293 D1222
- Country/Region Of Manufacture: China
- Manufacturer Part Number: ZK-11001
- Size: Standard
- Position: Front And Rear
- Highlight: Automotive Replacement Disc Brake Pad Set , Performance Boost Disc Brake Pad Set , Automotive Replacement Ceramic Disc Brake Pad

## Product Description

### Product Description:

One of the standout features of these disc brake pads is the inclusion of shims, ensuring a perfect fit and smooth operation. With shims included, you can install these brake pads with ease and confidence, knowing that they are designed to work seamlessly with your vehicle.

The Manufacturer Part Number for these disc brake pads is ZK-11001, a mark of quality and reliability in the automotive industry. When you see this part number, you can trust that you are getting a product that meets the highest standards of performance and durability. These disc brake pads are suitable for both the front and rear positions of your vehicle, providing comprehensive coverage for your braking system. Whether you need to replace the front or rear brake pads, this set has you covered, ensuring consistent performance and safety on all wheels.

Made from ceramic material, these disc brake pads are known for their exceptional quality and performance. Ceramic brake pads are a popular choice among car owners due to their superior stopping power, durability, and quiet operation. With these good ceramic brake pads, you can enjoy a smooth and reliable braking experience every time you hit the road.

As automotive replacement brake pads, this product is designed to meet or exceed the performance of OEM brake pads. OEM brake pads are the original equipment manufacturer's recommended choice for optimal braking performance and safety. With these replacement pads, you can rest assured that your vehicle's braking system is in good hands.

Upgrade your vehicle's braking performance with the Disc Brake Pad Set today. With shims included, a manufacturer part number of ZK-11001, front and rear positioning, ceramic material, and the assurance of OEM-level quality, these automotive replacement brake pads are a smart choice for any car owner.

### Features:

Product Name: Disc Brake Pad Set

Interchange Part Number: D1293 D1222

Dimensions: 8.5 X 5.5 X 2.5 Inches

Position: Front And Rear

Type: Brake Pad

Manufacturer Part Number: ZK-11001

### Technical Parameters:

Shims Included	Yes
Interchange Part Number	D1293 D1222
Easy To Install	Yes
Size	Standard
Type	Brake Pad
Manufacturer Part Number	ZK-11001
Material	Ceramic
Heat Resistant	Yes
Product Type	Automotive Replacement Brake Pads
Color	Black

### Applications:

ZKZB Disc Brake Pad Set (Model Number: ZK-81002) is a high-quality automotive replacement brake pads suitable for various occasions and scenarios. Made in China, these brake pads are designed to provide superior performance and reliability.

With its heat-resistant ceramic material, ZKZB brake pads are perfect for demanding driving conditions, making them the best ceramic brake pads option for drivers looking for optimal brake performance. Whether you are driving in city traffic, on the highway, or tackling challenging terrains, these brake pads offer consistent braking power and durability.

Thanks to their easy installation process, ZKZB Disc Brake Pad Set is ideal for DIY enthusiasts or professionals looking for a hassle-free brake pad replacement experience.
