Product Description

Product Description:

The Disc Brake Pad Set is a crucial component for maintaining the efficiency and safety of your vehicle's braking system. This set includes 4 pieces of high-quality brake pads, each designed to meet the rigorous standards of OEM brake pads, ensuring optimal performance and durability.

With a product weight of 2.5 pounds, these brake pads strike the perfect balance between sturdiness and agility, providing reliable stopping power without adding unnecessary bulk to your vehicle. The inclusion of a wear sensor further enhances the functionality of these pads, allowing for early detection of pad wear and ensuring timely replacement to prevent any potential damage to your braking system.

The dimensions of the Disc Brake Pad Set are 8.5 x 5.5 x 2.5 inches, making them compatible with a wide range of vehicle makes and models. Whether you drive a compact car, a mid-size sedan, or a large SUV, these brake pads are designed to deliver consistent performance and fit seamlessly into your vehicle's braking system.

Manufactured with precision and attention to detail, the Disc Brake Pad Set is identified by the factory number ZK-06004, indicating superior quality and compatibility with OEM standards. By choosing these brake pads, you are opting for a reliable and trusted solution that meets the same specifications as the original equipment manufacturer's brake pads.

Investing in the Disc Brake Pad Set not only ensures the safety of you and your passengers on the road but also offers peace of mind knowing that your vehicle's braking system is equipped with top-notch components. With the assurance of OEM brake pads quality, you can drive confidently and enjoy smooth and responsive braking performance in various driving conditions.
