Product Description

Product Description:

The Toyota Brake Pad Set is a high-quality product designed for optimal performance in your vehicle. This brake pad set is specifically designed for Toyota vehicles, ensuring a perfect fit and reliable braking power. With the Fmsi code of D1293/D1222, you can trust that these brake pads meet industry standards for quality and performance.

Manufactured in Japan, these brake pads are made with precision and attention to detail. The country of origin is an important factor to consider when purchasing auto parts, as it often reflects the quality and reliability of the product. With the Toyota Brake Pad Set, you can rest assured that you are getting a product that is made to the highest standards.

Weighing only 2.5 pounds, this brake pad set is lightweight yet durable. The weight of the brake pads is an important consideration, as it can impact the overall performance of your vehicle. With these lightweight brake pads, you can enjoy responsive braking without adding unnecessary weight to your vehicle.

One key feature of the Toyota Brake Pad Set is the included wear sensor. This wear sensor is designed to alert you when it's time to replace your brake pads, helping you maintain optimal braking performance and safety on the road. With the wear sensor included in this brake pad set, you can drive with confidence knowing that your rear brake pads are in top condition.

When it comes to rear brake pads for your Toyota vehicle, the Toyota Brake Pad Set is the ideal choice. These brake pads are designed to provide reliable and consistent braking performance, ensuring your safety on the road. With the Fmsi code of D1293/D1222, you can trust that these brake pads meet the highest standards of quality and performance.

Don't compromise on safety when it comes to your vehicle's brakes. Choose the Toyota Brake Pad Set for exceptional quality, performance, and reliability.
