

## Quiet Ceramic Toyota Brake Pad Set For Smooth And Consistent Braking

Our Product Introduction

for more products please visit us on [brakepadsset.com](http://brakepadsset.com)

### Basic Information

- Brand Name: ZKZB
- Model Number: 201562

### Product Specification

- Braking System: N
- Noise Reduction: Yes
- Material: Ceramic
- Fmsi: D1293/D1222
- Wear Sensor: Included
- Package Content: Brake Pads, Shims, And Hardware
- Weight: 2.5 Pounds
- Compatibility: Toyota Vehicles
- Highlight: **Quiet Toyota Brake Pad Set,  
Smooth Toyota Brake Pad Set,  
Consistent Toyota Brake Pad Set**

Product Description:

The Toyota Brake Pad Set is a high-quality product designed to provide reliable braking performance for your Toyota vehicle. This brake pad set is specifically made for Toyota vehicles, ensuring a perfect fit and optimal braking efficiency.

One of the key features of these brake pads is their exceptional heat resistance. This means that they can effectively withstand high temperatures generated during braking, resulting in consistent performance and durability. Whether you are driving in stop-and-go traffic or cruising on the highway, these brake pads will maintain their effectiveness under various driving conditions.

Additionally, the Toyota Brake Pad Set comes equipped with a wear sensor. This sensor is an important safety feature that alerts you when the brake pads are nearing the end of their lifespan. By providing this early warning system, the wear sensor helps you avoid potential brake failure and ensures that your vehicle remains safe to drive.

This brake pad set includes a total of 4 pieces, providing you with all the necessary components to replace the rear brake pads on your Toyota vehicle. With this complete set, you can easily perform a full brake pad replacement, ensuring that all four wheels have fresh, reliable brake pads for optimal stopping power.

Designed for use in vehicles with a braking system type of N, these ceramic brake pads are engineered to deliver consistent performance and reliable stopping power. The ceramic construction of these brake pads offers several advantages over traditional brake pad materials, including improved heat dissipation, reduced noise, and enhanced durability.

Despite their high-quality construction and advanced features, the Toyota Brake Pad Set is lightweight, weighing just 2.5 pounds. This lightweight design helps minimize unsprung weight, which can improve handling and overall vehicle performance. Additionally, the lighter weight of these brake pads can contribute to reduced wear on other brake components, such as rotors and calipers.

In conclusion, the Toyota Brake Pad Set is an excellent choice for Toyota vehicle owners in need of reliable and durable rear brake pads. With features such as heat resistance, a wear sensor, and a quantity of 4 pieces, these ceramic brake pads offer exceptional performance and safety. Upgrade your vehicle's braking system with the Toyota Brake Pad Set and enjoy confident stops and peace of mind on the road.

Features:

Product Name: Toyota Brake Pad Set

Warranty: 1 Year

Weight: 2.5 Pounds

Braking System: N

Heat Resistance: Yes

Package Content: Brake Pads, Shims, And Hardware

Technical Parameters:

Warranty	1 Year
Wear Sensor	Included
Country Of Origin	Japan
Noise Reduction	Yes
Quantity	4 Pieces
Part Number	04465-AZ106
Interchange Part Number	04465-35290, D1210, ACT1210
Fmsi	D1293/D1222
Heat Resistance	Yes
Material	Ceramic

Applications:

ZKZB 201562 rear brake pad set is a high-quality product designed for Toyota vehicles, providing optimal performance and safety on the road. Made with ceramic material, these brake pads are durable and reliable, ensuring long-lasting use.

These brake pads come with clips for easy installation, making them suitable for DIY enthusiasts and professional mechanics alike. The interchange part numbers 04465-35290, D1210, and ACT1210 guarantee compatibility with a wide range of Toyota models, ensuring a perfect fit every time.

One of the key features of the ZKZB 201562 brake pads is the noise reduction technology, which helps minimize brake squealing and ensures a quiet driving experience. This is particularly important for drivers who value a smooth and peaceful ride.

With dimensions of 5.5 X 5.5 X 2 inches, these brake pads are compact yet efficient, providing reliable braking power when you need it most. Whether you are driving in city traffic or on the highway, these brake pads deliver consistent performance under various conditions.

Whether you are replacing worn-out brake pads or upgrading to a higher quality option, the ZKZB 201562 brake pads are an ideal choice for Toyota owners. Manufactured in China, these brake pads meet high-quality standards and offer reliable stopping power for your vehicle.

From daily commuting to long-distance road trips, these brake pads for Toyota vehicles ensure safety and performance on every journey. Trust ZKZB 201562 brake pads to deliver excellent braking performance and peace of mind every time you hit the road.

**Customization:**

Enhance your driving experience with the ZKZB Brake Pad Set designed specifically for Toyota vehicles. These ceramic brake pads with clips are part number 201562, ensuring a perfect fit for your vehicle. Manufactured in China, these brake pads offer superior performance and durability.

Enjoy a quieter ride with built-in noise reduction features and added safety with the included wear sensor. The ZKZB Brake Pad Set is designed to withstand high temperatures, providing excellent heat resistance for prolonged use.

Compatible with Toyota vehicles equipped with a braking system N, these brake pads come with a 1-year warranty for your peace of mind. Upgrade your braking performance today with the ZKZB Brake Pad Set.
