Basic Information

- Brand Name: ZKZB
- Model Number: ZK-11011

Product Specification

- Easy To Install: Yes
- Package Contents: 4 Brake Pads
- Manufacturer Part Number: DBP-001
- Color: Black
- Product Type: Brake Pad
- Position: Front And Rear
- Upc: 123456789012
- Chamfered: Yes

Product Description

Product Description:

Product Summary:

The Disc Brake Pad Set is a premium product designed to provide exceptional braking performance for your vehicle. These OEM brake pads are specifically engineered to meet the highest standards of quality and durability, ensuring a safe and smooth driving experience. Each package contains 4 high-quality brake pads, making it convenient for a complete replacement of the front and rear brake pads. The inclusion of shims further enhances the performance of these pads by reducing noise and vibration, resulting in a quieter and more comfortable ride.

When it comes to brake pads, ceramic is considered one of the best brake pad materials available due to its superior performance and longevity. These ceramic brake pads offer excellent braking power, consistent performance, and minimal dust compared to traditional brake pad materials.

The Disc Brake Pad Set is designed to fit the front and rear positions of your vehicle, ensuring a perfect fit and optimal braking performance. The OEM designation (58101-2DA30) guarantees that these brake pads meet the exact specifications and requirements of your vehicle's original equipment manufacturer.

Investing in high-quality brake pads is essential for the safety and performance of your vehicle. With these good ceramic brake pads, you can have peace of mind knowing that your brakes will deliver reliable stopping power, whether you are driving in normal traffic conditions or facing emergency stops.

Upgrade your vehicle's braking system with the Disc Brake Pad Set and experience the difference that premium brake pads can make in your driving experience. Trust in the quality and reliability of these OEM brake pads to keep you safe on the road and provide consistent braking performance mile after mile.

Dimensions	5 X 5 X 5 Inches
Product Type	Brake Pad
Package Contents	4 Brake Pads
Manufacturer Part Number	DBP-001
Guarantee Period	30000-50000km
Color	Black

Applications:

ZKZB disc brake pad set (model number ZK-11011) is a high-quality product designed for various application occasions and scenarios. Made in China, these black ceramic brake pads are known for their durability and performance.

These disc brake pads are suitable for a wide range of vehicles and driving conditions, making them ideal for everyday use as well as more demanding situations. Whether you are driving in the city, on the highway, or off-road, ZKZB disc brake pads provide reliable and consistent braking performance.

With a guarantee period of 30000-50000km, you can trust that these brake pads will last a long time and provide excellent value for your money. The easy installation process means you can quickly replace your old brake pads with these new ones, saving you time and hassle.

One of the key features of ZKZB disc brake pads is that they are chamfered, which helps to reduce noise and vibration during braking. This chamfered design also improves the overall braking performance and ensures smooth and quiet operation.

While these brake pads do not include a wear sensor, their high-quality ceramic construction ensures that they offer excellent wear resistance and consistent performance over time. Whether you are looking for the best ceramic brake pads or simply good ceramic brake pads, ZKZB disc brake pad set is a reliable choice.
