Basic Information

- Brand Name: ZKZB
- Model Number: ZK-11011

Product Specification

- Color: Black / Grey
- Weight: Approximately 1.2 Kg Per Set
- Shims Included: Yes
- Model: Chery A3
- Material: Semi-metallic / Ceramic / Organic
- Braking System: ATE
- Accessories: Yes
- After Service: Yes

Product Description:

The Disc Brake Pad Set is an essential component for ensuring optimal braking performance and safety for your vehicle. Designed with precision and manufactured using high-quality materials, this set offers exceptional durability and reliability. Available in classic black and grey colors, these brake pads not only deliver superior functionality but also complement the aesthetics of your braking system seamlessly.

One of the standout features of this Disc Brake Pad Set is its composition as good ceramic brake pads. Ceramic brake pads are renowned for their excellent heat dissipation, minimal dust production, and quieter operation compared to traditional metallic or organic brake pads. This makes them an ideal choice for drivers seeking both performance and comfort. By choosing this ceramic brake pad set, you are investing in a product that provides consistent stopping power under various driving conditions while maintaining a cleaner wheel appearance due to reduced brake dust.

The Disc Brake Pad Set is designed to fit standard-sized brake calipers, making it a versatile choice for a wide range of vehicles. Whether you are replacing worn-out pads or upgrading your braking system, these pads are engineered to offer a precise fit and easy installation. The inclusion of shims helps to further reduce noise and vibrations during braking, ensuring a smooth and quiet ride. Shims play a crucial role in enhancing the overall braking experience by minimizing the chances of squealing and other unwanted sounds. In addition to the shims, this brake pad set comes with all necessary accessories required for installation. Having the accessories included means you do not need to purchase extra parts separately, simplifying the replacement process and saving you time and effort. This comprehensive package is designed to meet the needs of both DIY enthusiasts and professional mechanics.

When it comes to after-sales support, this Disc Brake Pad Set excels by offering reliable after service. Customer satisfaction is a priority, and the availability of after service ensures that any questions or concerns you might have post-purchase will be addressed promptly. This level of support adds confidence to your purchase, knowing that assistance is available whenever needed.

As one of the best ceramic brake pads on the market, this product combines the advantages of ceramic technology with thoughtful design features. The brake pads provide excellent braking performance with reduced wear on rotors and longer lifespan compared to conventional pads. Drivers will notice improved pedal feel and enhanced safety, especially in demanding driving scenarios such as city traffic or mountainous terrain.

Choosing this Disc Brake Pad Set means opting for a product that balances performance, durability, and convenience. The black and grey color options allow for a subtle yet sophisticated look, while the standard size ensures compatibility with many vehicle models. The included shims and accessories simplify installation, and the good ceramic brake pads composition guarantees a quiet, clean, and effective braking experience.

In summary, if you are looking for the best ceramic brake pads to upgrade or replace your vehicle's braking system, this Disc Brake Pad Set is an outstanding choice. It offers superior stopping power, reduced brake dust, quieter operation, and a long service life. Backed by excellent after service and a complete set of installation accessories, this product delivers great value and peace of mind to drivers who prioritize safety and performance on the road.

Features:

- Product Name: Disc Brake Pad Set
- Includes shims for reduced noise and vibration
- Weight: Approximately 1.2 Kg per set
- FMSI Number: D1258
- Width: 50mm
- Color: Black / Grey
- High-quality ceramic brake pad material for excellent performance
- Good ceramic brake pads designed for long-lasting durability
- OEM brake pads specification ensuring perfect fit and reliability

Technical Parameters:

Dimensions	Varies By Model (e.g., 120mm X 50mm X 15mm)
Color	Black / Grey
Product Code	DBPS
Accessories	Yes
FMSI	D1258
Shims Included	Yes
Size	Standard
Model	Chery A3
After Service	Yes
Width	50mm

Applications:

The ZKZB Disc Brake Pad Set, model number ZK-11011, is a high-quality product originating from China, designed to meet the

demanding needs of various driving conditions. Featuring the reliable ATE braking system, these disc brake pads provide exceptional stopping power and durability, making them an ideal choice for both everyday commuting and more intense driving situations. Weighing approximately 1.2 kg per set, the pads come in a sleek black and grey color scheme, combining functionality with a professional aesthetic.

This disc brake pad set is perfect for a wide range of application occasions and scenarios, including urban driving, highway cruising, and even light off-road adventures. Whether you are navigating through busy city streets or embarking on a long road trip, the ZKZB ZK-11011 disc brake pads ensure consistent and reliable braking performance. The product is also well-suited for use in commercial vehicles and fleet maintenance, offering durability and cost-efficiency for businesses that demand dependable brake components.

Installation and maintenance are made easier with the compatible brake pad tool, which allows for precise fitting and replacement without hassle. This feature is especially beneficial for automotive technicians and DIY enthusiasts who prefer to handle brake servicing themselves. The availability of after-service support from ZKZB guarantees customer satisfaction, providing peace of mind and assistance whenever needed.

For those seeking the best ceramic brake pads on the market, the ZKZB Disc Brake Pad Set stands out due to its superior heat dissipation, reduced noise, and minimal brake dust production. These advantages contribute to enhanced safety and a cleaner driving experience, making the product a top choice among discerning vehicle owners. Whether upgrading your current brake system or replacing worn-out pads, the ZKZB model ZK-11011 delivers excellent performance backed by trusted engineering.

In summary, the ZKZB Disc Brake Pad Set (Product Code: DBPS) is designed for versatile use across different driving environments, providing reliable braking power, ease of installation, and long-lasting durability. Its thoughtful design, combined with premium materials and the trusted ATE braking system, makes it an essential component for anyone looking to improve their vehicle's braking efficiency and safety.
