

Ceramic Disc Brake Pad Set Approximately 1.2 Kg Per Set Part Number DBP 001 Engineered For Consistent Braking Performance

Our Product Introduction

for more products please visit us on brakepadsset.com

Basic Information

- Brand Name: ZKZB
- Model Number: ZK-11011

Product Specification

- Factory No: ZK-24008
- Shims Included: Yes
- Weight: Approximately 1.2 Kg Per Set
- Accessories: Yes
- Width: 50mm
- Model: Chery A3
- Braking System: ATE
- Dimensions: Varies By Model (e.g., 120mm X 50mm X 15mm)

Product Description:

The Disc Brake Pad Set, factory number ZK-24008, is an essential component designed to deliver superior braking performance and safety for a wide range of vehicles. Engineered with precision and manufactured using high-quality materials, this brake pad set ensures reliable stopping power, durability, and quiet operation, making it a preferred choice for both everyday drivers and automotive enthusiasts. Available in two attractive color options, black and grey, these brake pads not only provide excellent functionality but also complement the aesthetic of your vehicle's braking system. The color variations allow for easy identification and customization, catering to different preferences without compromising performance.

One of the standout features of this Disc Brake Pad Set is the variety of material options available. Customers can choose between semi-metallic, ceramic, and organic compositions, each offering distinct benefits tailored to specific driving needs:

Semi-metallic: These pads are composed of a robust mixture of metals and other compounds, providing excellent heat dissipation and durability. They are ideal for heavy-duty applications and vehicles that require consistent braking performance under demanding conditions.

Ceramic: Widely regarded as the best ceramic brake pads in the market, these pads offer superior braking efficiency, reduced noise, and minimal dust production. The ceramic material ensures a smooth, quiet stopping experience while maintaining long-lasting wear resistance, making them an excellent choice for daily commuting and high-performance driving alike.

Organic: Manufactured from natural fibers and resins, organic brake pads provide a softer braking feel with less wear on rotors. They are often preferred for their environmentally friendly composition and quieter operation.

Each set of these Disc Brake Pads weighs approximately 1.2 kilograms, striking a perfect balance between sturdiness and ease of installation. The weight ensures that the pads are robust enough to handle rigorous braking demands while remaining manageable for mechanics and DIY enthusiasts during replacement or upgrades.

Additionally, the Disc Brake Pad Set includes shims, an important accessory that enhances the overall braking system performance. Shims help reduce noise and vibrations, contributing to a smoother and quieter driving experience. Their inclusion in the set means you receive a comprehensive package that addresses both functionality and comfort.

These brake pads are designed to meet or exceed OEM brake pads standards, ensuring compatibility and reliability that vehicle owners expect from original equipment. By choosing this Disc Brake Pad Set, you are investing in a product that promises consistent performance, safety, and longevity, adhering to rigorous manufacturing standards.

Whether you are seeking the best ceramic brake pads for their quiet operation and cleanliness or prefer the toughness of semi-metallic or the eco-friendliness of organic materials, this brake pad set offers versatile options to suit your specific requirements. The factory number ZK-24008 guarantees you receive a trusted and well-documented product, making it easier to find replacements or upgrades in the future.

In summary, the Disc Brake Pad Set (ZK-24008) combines high-quality materials, thoughtful design, and essential accessories like shims to deliver exceptional braking performance. Its availability in black and grey colors, alongside semi-metallic, ceramic, and organic material options, ensures there is a perfect fit for every driver's needs. With a weight of approximately 1.2 Kg per set and compliance with OEM brake pads standards, this product represents a reliable, durable, and efficient solution for maintaining your vehicle's safety and braking efficiency. Choose this brake pad set for enhanced stopping power, reduced noise, and long-lasting performance on the road.

Features:

- Product Name: Disc Brake Pad Set
- Color Options: Black / Grey
- Factory Number: ZK-24008
- Size: Standard
- FMSI Number: D1258
- Compatible Braking System: ATE
- High-quality materials ensure these are some of the best ceramic brake pads on the market
- Designed to deliver excellent performance as good ceramic brake pads should
- Includes considerations for easy installation with a brake pad tool

Technical Parameters:

Accessories	Yes
Manufacturer Part Number	DBP-001
Size	Standard
Model	Chery A3
Weight	Approximately 1.2 Kg Per Set
Braking System	ATE
Width	50mm
Shims Included	Yes
Factory No	ZK-24008
Color	Black / Grey

Applications:

The ZKZB Disc Brake Pad Set, model number ZK-11011, is designed to provide superior braking performance for the Chery A3. Manufactured in China and identified with the part number DBP-001, these disc brake pads are a reliable choice for drivers seeking safety and efficiency on the road. Crafted from high-quality semi-metallic, ceramic, and organic materials, this brake pad set offers a versatile solution for various driving conditions. The blend of materials ensures excellent heat dissipation, reduced noise, and minimal wear, making them an ideal option for everyday use as well as more demanding scenarios.

When it comes to application occasions, the ZKZB disc brake pads are suitable for both urban commuting and long-distance travel. Their durable construction allows for consistent braking performance in stop-and-go traffic, highway driving, and even in adverse weather conditions. Whether navigating crowded city streets or cruising on open roads, these brake pads deliver responsive stopping power, enhancing overall vehicle control. Additionally, the presence of good ceramic brake pads in this set ensures quieter braking and less dust, which translates into a cleaner wheel appearance and a more comfortable driving experience.

In terms of scenarios, the ZKZB brake pad set is perfect for drivers who prioritize safety and reliability. It is widely recognized as one of the best brake pad brands due to its commitment to quality and customer satisfaction, supported by comprehensive after-service support. From daily commutes to weekend road trips, these disc brake pads provide the necessary friction and durability to handle frequent braking without compromising performance. They are also well-suited for use in mild off-road conditions, thanks to their robust semi-metallic composition that withstands higher temperatures and rougher terrains.

Overall, the ZKZB Disc Brake Pad Set (FMSI: D1258) is a practical and dependable choice for Chery A3 owners looking to maintain optimal braking efficiency. Offering a balance of performance, longevity, and comfort, these pads help ensure a safe driving experience across a wide range of driving conditions. With reliable after-service available, customers can have peace of mind knowing their investment is protected. For those seeking disc brake pads that combine quality materials and trusted manufacturing, ZKZB stands out as an excellent option in the market.
