Basic Information

- Brand Name: ZKZB
- Model Number: ZK-11011

Product Specification

- Accessories: Yes
- After Service: Yes
- Size: Standard
- Material: Semi-metallic / Ceramic / Organic
- Factory No: ZK-24008
- Manufacturer Part Number: DBP-001
- Fmsi: D1258
- Width: 50mm

Product Description:

The Disc Brake Pad Set designed specifically for the Chery A3 model is an essential upgrade for anyone looking to enhance their vehicle's braking performance with reliability and style. Available in a sleek black and grey color combination, these brake pads not only deliver high functionality but also add a subtle aesthetic appeal to your vehicle's braking system. With a width of 50mm and a standard size, this set ensures a perfect fit, making installation straightforward and hassle-free.

One of the standout features of this Disc Brake Pad Set is the use of high-quality ceramic material, making these some of the best ceramic brake pads available on the market today. Ceramic brake pads are renowned for their excellent heat dissipation, low dust production, and quiet operation. This means that with these pads, you can expect smoother braking performance, less noise, and a cleaner wheel area compared to traditional brake pads. The ceramic compound used in this set is engineered to provide consistent stopping power, reducing wear on both the pads and the rotors, thereby extending the lifespan of your braking components.

These good ceramic brake pads offer superior friction levels, which translates to improved safety and control, especially during sudden stops or emergency braking situations. Whether you are driving in city traffic or cruising on the highway, the disc brake pads maintain optimal performance, giving you confidence behind the wheel. The advanced design and material composition also help in minimizing brake fade, a common issue during prolonged braking, ensuring that your vehicle responds reliably even in demanding conditions.

Another key advantage of this Disc Brake Pad Set is the inclusion of accessories, which adds convenience and value to your purchase. The accessories kit typically includes necessary hardware such as clips, shims, and pins that are vital for proper installation and function of the brake pads. Having these components included means you won't need to source additional parts separately, making the installation process smoother and ensuring that the brake pads fit securely and operate efficiently.

The standard size of the brake pads is designed to meet the original equipment manufacturer (OEM) specifications for the Chery A3, guaranteeing compatibility and optimal performance. This ensures that replacement is straightforward, without the need for modifications or adjustments. The precision engineering behind this product means that you can trust the disc brake pads to deliver consistent and reliable braking performance throughout their service life.

In terms of maintenance, ceramic brake pads are known for their durability and resistance to wear and tear. This Disc Brake Pad Set is no exception, offering a long service life that reduces the frequency of replacements and overall maintenance costs. Additionally, the low dust characteristic of ceramic pads helps keep your wheels cleaner, contributing to a better-looking vehicle with less effort.

Choosing the best ceramic brake pads is crucial for maintaining both safety and performance, and this Disc Brake Pad Set for the Chery A3 stands out as an excellent choice. Whether you prioritize quiet operation, longevity, or consistent braking power, these brake pads deliver on all fronts. Their combination of quality materials, precise fit, and included accessories make them a smart investment for any vehicle owner looking to upgrade their braking system.

In summary, the Disc Brake Pad Set in black and grey color, with a width of 50mm and standard size, is a high-performance solution tailored for the Chery A3. Featuring good ceramic brake pads that provide excellent stopping power, reduced noise, and minimal dust, this product ensures a safer and more enjoyable driving experience. The included accessories further enhance the ease of installation and overall value, making these disc brake pads a top choice for those seeking reliability, quality, and efficiency in their vehicle's braking system.

Features:

- Product Name: Disc Brake Pad Set
- Width: 50mm
- Manufacturer Part Number: DBP-001
- Compatible with ATE Braking System
- Available in best brake pad material options: Semi-metallic, Ceramic, and Organic
- Offers good ceramic brake pads for enhanced performance and durability
- Includes high-quality ceramic brake pads for quieter and cleaner braking
- After Service Support Available

Technical Parameters:

Width	50mm
Factory No	ZK-24008
Material	Semi-metallic / Ceramic / Organic
Dimensions	Varies By Model (e.g., 120mm X 50mm X 15mm)
Model	Chery A3
Manufacturer Part Number	DBP-001
Product Code	DBPS
Color	Black / Grey
Accessories	Yes
Shims Included	Yes

Applications:

The ZKZB Disc Brake Pad Set, model number ZK-11011, is a premium product originating from China, designed to meet the highest standards of braking performance. With dimensions that vary by model, such as 120mm X 50mm X 15mm, and a width of 50mm, this set offers a perfect fit for a wide range of vehicles. Weighing approximately 1.2 kg per set and featuring a sleek black and grey color scheme, the ZKZB brake pads combine durability with aesthetic appeal. Additionally, the set comes complete with all necessary accessories, ensuring an easy and convenient installation process.

These disc brake pads are ideally suited for everyday driving scenarios, including city commuting, highway cruising, and stop-and-go traffic conditions. The ceramic brake pad composition guarantees superior heat dissipation and reduced brake dust, making them one of the best ceramic brake pads available on the market. This makes the ZKZB Disc Brake Pad Set particularly effective for drivers who prioritize cleanliness and long-lasting performance in their braking systems.

For more demanding applications such as mountain driving, towing, or driving in hilly terrain, the ZKZB disc brake pads provide consistent stopping power and enhanced safety. Their robust construction ensures reliable performance even under heavy braking conditions, preventing brake fade and improving overall vehicle control. The ceramic material also contributes to quieter braking, reducing noise and vibrations for a more comfortable driving experience.

Moreover, these disc brake pads are perfect for automotive enthusiasts and professionals who require high-performance brake components that can withstand rigorous use. Whether upgrading your vehicle's braking system for better responsiveness or replacing worn-out pads, the ZKZB ZK-11011 model offers a dependable solution. Its compatibility with various vehicle models, combined with the comprehensive accessory kit, makes it a versatile choice for mechanics and DIYers alike.

In summary, the ZKZB Disc Brake Pad Set is designed for multiple application occasions, ranging from daily commuting to high-performance driving scenarios. Its ceramic brake pad technology ensures superior braking efficiency, reduced wear, and enhanced safety, positioning it as one of the best ceramic brake pads on the market. Choose ZKZB for reliable, high-quality disc brake pads that meet your vehicle's braking needs under diverse conditions.
