Basic Information

- Brand Name: ZKZB
- Model Number: ZK-11011

Product Specification

- Oem: 4252.18
- Chamfered: Yes
- Warranty: 12 Months
- Interchange Part Number: D1293 D1222
- Placement On Vehicle: Front And Rear
- Quantity: 4 Pieces Per Set
- Oe Replacement: Yes
- Shims Included: Yes

Product Description:

The Disc Brake Pad Set designed specifically for the Buick Firstland is an exceptional choice for drivers seeking reliable and high-performance braking components. Engineered to meet the rigorous standards of the TKO braking system, this set ensures optimal stopping power and safety under various driving conditions. Whether you are navigating city streets or embarking on long highway journeys, these disc brake pads provide consistent and dependable performance that you can trust.

This product is an OE replacement, meaning it matches the original equipment manufacturer specifications exactly. This guarantees perfect fitment and compatibility with your Buick Firstland's braking system, making installation straightforward and hassle-free. Using OE replacement parts ensures that your vehicle maintains its original safety standards and braking efficiency, which is critical for both everyday driving and emergency situations.

Each set includes 4 pieces, covering both front wheels to provide a balanced and uniform braking experience. This quantity is ideal for a complete axle replacement, giving your vehicle the full upgrade it needs to perform at its best. Having a complete set also simplifies maintenance and ensures that all brake pads wear evenly, prolonging the life of your braking system and enhancing overall vehicle safety. A standout feature of these disc brake pads is their composition using good ceramic brake pads material. Ceramic brake pads are highly regarded in the automotive industry for their excellent heat dissipation, reduced brake dust generation, and quieter operation compared to traditional metallic pads. These attributes help maintain cleaner wheels and deliver a quieter, more comfortable driving experience without compromising braking power.

In addition to superior performance, this Disc Brake Pad Set comes with a 12-month warranty, providing peace of mind and assurance of its quality and durability. The warranty demonstrates the manufacturer's confidence in the product's longevity and reliability, protecting you against any defects or premature wear. This commitment to quality ensures that your investment is safeguarded, and you can drive with confidence knowing that your braking system is supported by a trusted warranty.

For Buick Firstland owners looking to maintain or enhance their vehicle's braking system, this disc brake pad set is an ideal solution. It combines the trusted reliability of OEM brake pads with the advanced benefits of ceramic technology, delivering both performance and durability. The precise engineering to fit the TKO braking system ensures that these pads integrate seamlessly into your vehicle, offering smooth and efficient braking every time you press the pedal.

In summary, this Disc Brake Pad Set for the Buick Firstland offers a comprehensive package of quality, performance, and peace of mind. With 4 pieces per set, OE replacement certification, compatibility with the TKO braking system, and a 12-month warranty, it stands out as a dependable choice for drivers who demand the best. The use of good ceramic brake pads not only enhances braking efficiency but also reduces noise and brake dust, making it a superior option for everyday driving and beyond.

Upgrade your braking system today with these OEM brake pads designed specifically for your Buick Firstland, and experience the difference that high-quality disc brake pads can make. Whether replacing worn-out pads or performing routine maintenance, this set ensures your vehicle remains safe, reliable, and ready for the road ahead.

Features:

- Product Name: Disc Brake Pad Set
- OE Replacement: Yes, ensures perfect fit and performance
- Interchange Part Numbers: D1293, D1222 for versatile compatibility
- OEM Part Number: 4252.18 for reliable quality assurance
- Warranty: 12 Months for your peace of mind
- Shims Included: Yes, reduces noise and vibration
- High-quality OEM brake pads designed for durability
- Efficient disc brake pads that provide excellent stopping power
- Ceramic brake pads for quieter braking and reduced brake dust

Technical Parameters:

Placement On Vehicle	Front And Rear
Shims Included	Yes
Warranty	12 Months
Quantity	4 Pieces Per Set
Size	Standard
Braking System	TKO
Interchange Part Number	D1293 D1222
OEM	4252.18
Model	Buick Firstland
Friction Coefficient	0.35

Applications:

The ZKZB Disc Brake Pad Set, model number ZK-11011, is designed to deliver exceptional performance and reliability for a wide range of vehicles. Manufactured in China with high-quality materials, these brake pads are engineered to meet rigorous OEM standards,

specifically OEM number 4252.18, ensuring a perfect fit and optimal functionality. With an included set of shims and a friction coefficient of 0.35, the ZKZB brake pads offer superior stopping power and reduced noise, making them an excellent choice for both everyday driving and more demanding conditions.

These brake pads are ideal for a variety of application occasions and scenarios. Whether you are commuting in urban environments, driving on highways, or navigating mountainous terrain, the ZKZB Disc Brake Pad Set provides consistent braking performance. Their standard size makes them compatible with many vehicle models, allowing easy installation and replacement. Additionally, the inclusion of shims helps to minimize vibration and brake noise, enhancing overall driving comfort and safety.

For drivers seeking the best ceramic brake pads, the ZKZB Disc Brake Pad Set stands out as a top contender. Ceramic brake pads are known for their durability, low dust production, and excellent heat dissipation, which contribute to longer pad life and cleaner wheels. The ZKZB pads, with their 12-month warranty, give users peace of mind and confidence in their investment. Whether you are a daily commuter, a weekend road trip enthusiast, or someone who values reliable braking performance under various weather conditions, these pads are designed to meet and exceed your expectations.

In summary, the ZKZB Disc Brake Pad Set (ZK-11011) is perfect for anyone looking for the best ceramic brake pads that combine quality, performance, and value. Their OEM compatibility, included shims, and robust friction coefficient make them suitable for a broad range of vehicles and driving scenarios. Trust ZKZB to provide brake pads that ensure safety, comfort, and durability for your vehicle's braking system.

Customization:

Experience the superior quality of ZKZB with our Disc Brake Pad Set, model number ZK-11011, designed specifically for the Buick Firstland. Manufactured in China, these brake pads feature a friction coefficient of 0.35, ensuring reliable and consistent braking performance. Each standard-sized set includes 4 pieces, making it a complete solution for your vehicle's braking needs. As the best brake pad brand in the market, ZKZB offers the best ceramic brake pads that combine durability, noise reduction, and excellent stopping power. Our Disc Brake Pad Set is compatible with interchange part numbers D1293 and D1222, providing a perfect fit and easy installation.

Choose ZKZB for the best brake pad brand experience, and enjoy enhanced safety and performance with every drive.

Support and Services:

Our Disc Brake Pad Set is designed to provide reliable and efficient braking performance for a wide range of vehicles. For optimal results, ensure the brake pads are installed properly and regularly checked for wear and tear.

If you experience any issues such as unusual noises, reduced braking efficiency, or vibrations, please inspect the brake pads and rotors for damage or contamination. Replace the pads immediately if they are worn beyond the recommended thickness.

We recommend using only high-quality brake fluid compatible with your vehicle's specifications to maintain the braking system's integrity. Always follow the manufacturer's guidelines for brake system maintenance and servicing.

For installation, ensure that all components are clean and free of grease or debris. Use appropriate tools and torque settings as specified in your vehicle's service manual.

Regular maintenance and timely replacement of brake pads are crucial for safe driving and optimal brake performance. If you require further technical assistance or have questions about our Disc Brake Pad Set, please refer to the product manual or visit our support website.
