Basic Information

- Brand Name: ZKZB
- Model Number: ZK-11011

Product Specification

- Heat Resistant: Yes
- Placement On Vehicle: Front And Rear
- Product Dimensions: 5.5 X 5.5 X 3 Inches
- Thickness: 12 Mm
- Dimensions: 120mm X 60mm X 20mm
- Installation: Direct Replacement, No Modification Needed
- Packing: Customized
- Certifications: ISO 9001, ECE R90

Product Description:

The Disc Brake Pad Set is an essential upgrade for any Mazda RX-8 owner looking to enhance their vehicle's braking performance and safety. Designed with precision and engineered to meet the highest standards, this brake pad set offers exceptional stopping power and durability. With product dimensions of 5.5 x 5.5 x 3 inches, these brake pads are compact yet powerful, ensuring a perfect fit and reliable performance every time you hit the brakes.

Specifically tailored for the Mazda RX-8 model, this brake pad set includes four brake pads, providing coverage for both the front and rear placements on your vehicle. Whether you are replacing worn-out pads or upgrading your braking system, this set is designed to be a direct replacement, meaning no modifications or additional adjustments are necessary during installation. This direct replacement feature makes the installation process straightforward and hassle-free, even for those with minimal mechanical experience.

One of the standout characteristics of this Disc Brake Pad Set is its use of the best brake pad material available on the market today. The material composition ensures excellent friction levels, heat resistance, and wear longevity, making it an ideal choice for both everyday driving and more demanding conditions. The best brake pad material not only contributes to improved braking efficiency but also helps reduce noise and dust, which are common issues with inferior brake pads.

When it comes to safety and performance, choosing the best brake pad brand is crucial. This product represents a leading name in the industry, known for delivering high-quality brake components that meet or exceed OEM specifications. By selecting this brake pad set, you are investing in a brand that prioritizes reliability, safety, and customer satisfaction. The combination of superior materials and expert engineering ensures that your Mazda RX-8 will experience smoother stops, enhanced control, and overall improved driving confidence. The package contents include four brake pads, enough to replace the pads on both the front and rear axles of your vehicle. This comprehensive set eliminates the need to purchase front and rear pads separately, providing convenience and value for money. The pads are designed to work harmoniously with your existing braking system, ensuring balanced braking performance and preventing uneven wear.

In addition to performance benefits, this Disc Brake Pad Set is also designed with longevity in mind. The best brake pad material used in these pads offers resistance to glazing and fading, which can occur under heavy use or high temperatures. This means you can expect consistent braking performance over an extended period, reducing the frequency of replacements and maintenance costs.

Furthermore, the compact product dimensions of 5.5 x 5.5 x 3 inches make storage and handling easy, whether you are a professional mechanic or a car enthusiast performing a DIY installation. The thoughtful design ensures that the brake pads fit perfectly within the brake calipers of the Mazda RX-8, maintaining the integrity of the braking system without compromising on performance.

In summary, this Disc Brake Pad Set is a must-have for Mazda RX-8 owners who seek the best brake pad brand combined with the best brake pad material. It offers a perfect blend of durability, efficiency, and ease of installation. With four brake pads included, suitable for both front and rear placement, and a simple direct replacement installation, this product is designed to deliver reliable and safe braking performance. Upgrade your Mazda RX-8's braking system today with this premium brake pad set and experience the difference that quality and precision engineering can make.

Features:

Product Name: Disc Brake Pad Set

Width: 50mm

Thickness: 12mm

Slotted design for improved heat dissipation and performance

Package Contents: 4 Brake Pads

Product Dimensions: 5.5 X 5.5 X 3 Inches

High-quality disc brake pads from the best brake pad brand

Durable and reliable, ensuring optimal braking performance

Technical Parameters:

Number of Pads	4
Wear Indicator	Included / Not Included
Package Contents	4 Brake Pads
Packing	Customized
Heat Resistant	Yes
Certifications	ISO 9001, ECE R90
Width	50mm
Product Dimensions	5.5 X 5.5 X 3 Inches
Installation	Direct Replacement, No Modification Needed
Slotted	Yes

Applications:

The ZKZB Disc Brake Pad Set, model number ZK-11011, is an essential component designed to provide reliable and efficient braking performance for various vehicles. Manufactured in China, these disc brake pads come with dimensions of 5.5 x 5.5 x 3 inches, making

them a compact yet powerful solution for your braking needs. With ISO 9001 and ECE R90 certifications, the ZKZB brake pads guarantee high quality and compliance with international safety standards.

These OEM brake pads are perfect for direct replacement applications, requiring no modification during installation. This feature makes the ZKZB disc brake pad set an ideal choice for both professional mechanics and everyday vehicle owners who want a hassle-free upgrade or replacement. The convenient packing customization options also ensure that you receive the product in a form that suits your specific requirements, whether for retail or bulk supply.

The ZKZB disc brake pads are suitable for a wide range of application occasions and scenarios. They are designed to perform optimally in daily commuting vehicles, ensuring smooth and safe braking in urban traffic conditions. Whether you drive a compact car, sedan, or light SUV, these brake pads deliver consistent stopping power, enhancing overall driving safety.

In more demanding scenarios such as long-distance travel or highway driving, the ZKZB brake pads maintain excellent heat dissipation and wear resistance, preventing brake fade and ensuring dependable performance. Additionally, they are well-suited for light commercial vehicles that require durable and efficient braking under frequent stop-and-go conditions.

For automotive workshops and service centers, the inclusion of a brake pad tool alongside these OEM brake pads facilitates easy and quick replacement procedures. Mechanics can rely on the ZKZB disc brake pad set to reduce service time without compromising on quality or safety. The easy installation process, requiring no modifications, is especially beneficial in busy environments where efficiency is crucial.

Overall, the ZKZB Disc Brake Pad Set ZK-11011 is designed to meet the rigorous demands of various driving environments, providing dependable braking performance, safety, and convenience. Whether for personal use, professional repair shops, or commercial fleets, these disc brake pads are an excellent choice to ensure your vehicle's braking system operates at its best.
