

12 Mm Thickness Disc Brake Pad Set Numberofpads 4 Wear Indicator Not Included Ideal for Heavy Duty Trucks and Machinery

Our Product Introduction

Basic Information

- Brand Name: ZKZB
- Model Number: ZK-11011

Product Specification

- Product Dimensions: 5.5 X 5.5 X 3 Inches
- Wear Indicator: Included / Not Included
- Package Contents: 4 Brake Pads
- Width: 50mm
- Model: Mazda RX-8
- Heat Resistant: Yes
- Numberofpads: 4
- Packing: Customized

Product Description:

The Disc Brake Pad Set for the Mazda RX-8 is an essential upgrade for anyone seeking reliable and high-performance braking solutions. This set includes 4 brake pads, designed specifically to fit the Mazda RX-8 model, ensuring a perfect fit and optimal braking performance. Whether you are replacing worn-out pads or upgrading your vehicle's braking system, these disc brake pads offer a durable and efficient option that meets the demands of everyday driving as well as more spirited driving conditions.

One of the standout features of this Disc Brake Pad Set is its composition as good ceramic brake pads. Ceramic brake pads are well-known for their superior qualities, including quieter operation, less dust generation, and excellent stopping power. These pads are engineered to provide smooth and consistent braking performance, making them a popular choice among car enthusiasts and everyday drivers alike. The ceramic material also contributes to longer pad life, ensuring that you get the most mileage out of each set while maintaining reliable braking throughout their lifespan.

The thickness of each brake pad in this set is 12 mm, which is an ideal measurement for providing robust braking force and durability. The substantial thickness helps in dissipating heat effectively, which is crucial for maintaining brake performance during prolonged use. This thickness also means less frequent replacements, saving you time and money in the long run.

Heat resistance is a critical attribute of any quality brake pad, and these disc brake pads excel in that regard. Designed to withstand high temperatures generated during braking, these pads maintain their integrity and performance even under extreme conditions. This heat resistance reduces the risk of brake fade, ensuring consistent stopping power whether you are driving in city traffic or tackling winding roads. The ability to resist heat also helps in preserving the brake rotor's condition, preventing warping and uneven wear.

Another important aspect of these brake pads is their status as OEM brake pads. OEM, or Original Equipment Manufacturer, indicates that these pads meet or exceed the specifications set by Mazda for the RX-8. This guarantees compatibility, safety, and performance, as well as peace of mind knowing that the parts are designed specifically for your vehicle's braking system. Choosing OEM brake pads ensures that you maintain the integrity of your vehicle's braking performance and avoid potential issues that can arise from using inferior aftermarket parts.

Installation of the Disc Brake Pad Set is straightforward, especially since the pads are tailor-made for the Mazda RX-8. With the right tools, you can easily replace your existing pads and experience immediate improvements in braking responsiveness and smoothness. Additionally, these pads are designed to minimize noise and vibration, contributing to a quieter and more comfortable driving experience. In summary, the Disc Brake Pad Set for the Mazda RX-8 combines the best qualities you seek in brake pads: good ceramic brake pads that offer excellent stopping power, durability, and quiet operation; a thickness of 12 mm that ensures long-lasting performance; heat resistance to maintain braking efficiency under demanding conditions; and OEM quality that guarantees compatibility and safety. If you are looking for reliable and high-quality disc brake pads to enhance your Mazda RX-8's braking system, this set is an outstanding choice that balances performance, durability, and value.

Features:

- Product Name: Disc Brake Pad Set
- Product Type: Brake Pads
- Package Contents: 4 Brake Pads
- Number of Pads: 4
- Product Dimensions: 5.5 x 5.5 x 3 inches
- Packing: Customized
- Made from the best brake pad material for superior performance
- High-quality disc brake pads designed for reliable stopping power
- Includes best ceramic brake pads for enhanced durability and reduced noise

Technical Parameters:

Packing	Customized
Dimensions	120mm X 60mm X 20mm
Thickness	12 Mm
Package Contents	4 Brake Pads
Placement On Vehicle	Front And Rear
Number of Pads	4
Product Type	Brake Pads
Product Dimensions	5.5 X 5.5 X 3 Inches
Heat Resistant	Yes
Slotted	Yes

Applications:

The ZKZB Disc Brake Pad Set, model number ZK-11011, is designed specifically for the Mazda RX-8, offering an exceptional combination of performance, durability, and safety. Originating from China and holding prestigious certifications like ISO 9001 and ECE R90, this brake pad set guarantees quality and reliability. Its slotted design and 12 mm thickness ensure optimal heat dissipation and

consistent braking power, making it an excellent choice for various driving conditions.

This product is ideal for automotive enthusiasts and everyday drivers seeking the best brake pad material to enhance their vehicle's braking system. Whether you are commuting in the city, cruising on highways, or engaging in spirited driving, the ZKZB brake pads provide reliable stopping power and superior wear resistance. The good ceramic brake pads composition ensures quieter braking, reduced dust, and longer lifespan compared to standard organic pads.

Installation is straightforward with the ZKZB Disc Brake Pad Set, as it is a direct replacement requiring no modifications. This feature makes it convenient for mechanics and DIY enthusiasts who want to upgrade their Mazda RX-8's braking system without hassle. The slotted design improves brake performance by allowing gases and debris to escape, enhancing the pad's contact with the rotor and ensuring smoother and safer stops.

Perfect for both daily driving and more demanding scenarios such as mountain roads or track days, these pads stand out among the best ceramic brake pads available in the market. They combine excellent friction characteristics with durability, making them suitable for a wide range of applications. Whether you need dependable brakes for city traffic or require robust performance for spirited driving, the ZKZB Disc Brake Pad Set meets these demands effectively.

In summary, the ZKZB Disc Brake Pad Set ZK-11011 is the ideal choice for Mazda RX-8 owners looking for high-quality, good ceramic brake pads that do not compromise on performance or safety. Being manufactured under strict quality controls and certified by global standards, these pads offer peace of mind and enhanced driving confidence in every journey.
