

Slotted 12 Mm Thickness Best Ceramic Brake Pads Engineered For Smooth Braking And Reduced Noise In Heavy Duty Applications

Our Product Introduction

for more products please visit us on brakepadsset.com

Basic Information

- Brand Name: ZKZB
- Model Number: ZK-11011

Product Specification

- Model: Mazda RX-8
- Wear Indicator: Included / Not Included
- Dimensions: 120mm X 60mm X 20mm
- Packing: Customized
- Numberofpads: 4
- Width: 50mm
- Product Type: Brake Pads
- Thickness: 12 Mm

Product Description:

The Disc Brake Pad Set is an essential component designed to provide superior stopping power and enhanced safety for your vehicle. Engineered with precision and crafted from high-quality materials, these disc brake pads are an excellent choice for drivers seeking reliability, durability, and optimal braking performance. Featuring a width of 50mm, this set includes 4 individual pads, making it suitable for a complete axle replacement or upgrade. Whether you are performing routine maintenance or upgrading your braking system, these pads deliver consistent and dependable results.

One of the standout features of this Disc Brake Pad Set is the inclusion of a wear indicator on select models, allowing you to monitor brake pad wear easily and ensuring timely replacement before performance is compromised. This feature adds an extra layer of safety by preventing unexpected brake failure. Additionally, the pads are slotted, a design element that helps dissipate heat, reduce brake fade, and minimize noise during braking. The slots also assist in channeling away dust and gases generated during braking, which helps maintain cleaner contact surfaces and improves overall braking efficiency.

These disc brake pads are specifically formulated as ceramic brake pads, known for their superior performance compared to traditional organic or semi-metallic pads. Ceramic brake pads offer several advantages including quieter operation, reduced brake dust production, and longer lifespan. They provide smooth and consistent braking response, making them the best ceramic brake pads available in the market for everyday driving as well as more demanding conditions. The ceramic material also ensures excellent heat resistance, which means these pads maintain their performance even under heavy braking or in high-temperature environments.

The packaging of this Disc Brake Pad Set is customized to meet the needs of different customers, ensuring that the product arrives in optimal condition, protected from damage during shipping and handling. Whether you are a professional mechanic or a car enthusiast, the customized packing guarantees convenience and safety for your purchase.

When it comes to choosing disc brake pads, quality and performance are paramount. This set offers an ideal balance of durability, noise reduction, and superior stopping power, making it a top choice for those looking to install the best ceramic brake pads on their vehicle. The precise width of 50mm ensures compatibility with a wide range of vehicle models, providing a seamless fit and easy installation. The set of 4 pads allows you to replace both front or rear brakes at once, ensuring uniform braking performance on both sides of the axle. In summary, the Disc Brake Pad Set combines advanced ceramic technology with thoughtful design features such as slotted pads and optional wear indicators to deliver exceptional braking performance. Its customized packaging, appropriate sizing, and complete set composition make it an excellent investment for maintaining and enhancing vehicle safety. Whether you are upgrading from standard brake pads or replacing worn components, these disc brake pads represent the best ceramic brake pads option available, offering peace of mind and superior control on the road.

Features:

- Product Name: Disc Brake Pad Set
- Product Type: Brake Pads
- Compatible Model: Mazda RX-8
- Dimensions: 120mm x 60mm x 20mm
- Width: 50mm
- Package Contents: 4 Brake Pads
- Made from the best brake pad material for superior performance
- Features the best ceramic brake pads for enhanced durability and reduced noise
- Engineered as the best ceramic brake pads to provide excellent stopping power and longevity

Technical Parameters:

Product Type	Brake Pads
Slotted	Yes
Dimensions	120mm X 60mm X 20mm
Product Dimensions	5.5 X 5.5 X 3 Inches
Width	50mm
Wear Indicator	Included / Not Included
Heat Resistant	Yes
Placement On Vehicle	Front And Rear
Installation	Direct Replacement, No Modification Needed
Packing	Customized

Applications:

The ZKZB Disc Brake Pad Set, model number ZK-11011, is a premium product originating from China, designed to meet the highest standards of quality and safety. Certified with ISO 9001 and ECE R90, these disc brake pads are engineered for optimal performance and durability, making them an excellent choice for both front and rear placement on a variety of vehicles. With dimensions of 120mm x 60mm x 20mm and a width of 50mm, these brake pads fit perfectly to ensure reliable braking power. These disc brake pads are ideal for use in numerous application occasions and scenarios. Whether you are performing routine

maintenance or upgrading your vehicle's braking system, the ZKZB brake pad set provides the best brake pad material that guarantees superior friction, heat resistance, and wear longevity. They are perfect for everyday commuting, long-distance driving, and even demanding conditions such as mountainous terrains or heavy traffic, where consistent braking performance is crucial.

In professional automotive workshops and service centers, the ZKZB disc brake pads are widely used alongside specialized brake pad tools to ensure precise installation and adjustment. This makes them suitable for both DIY enthusiasts and professional mechanics who prioritize safety and efficiency. The customized packing also offers convenience and protection during transportation and storage, preserving the integrity of the brake pads until they are ready to be installed.

Furthermore, these brake pads are compatible with a wide range of vehicles, making them versatile for different car models that require dependable front and rear braking solutions. The combination of high-quality materials, certifications, and perfect dimensions ensures that the ZKZB disc brake pad set delivers excellent stopping power, reduces noise and vibration, and enhances overall driving safety.

In summary, the ZKZB disc brake pad set is perfectly suited for multiple scenarios — from daily urban driving to rigorous professional use. Utilizing the best brake pad material and designed to work seamlessly with brake pad tools, this product offers a reliable, efficient, and safe braking solution for any vehicle's front and rear braking system.
